

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

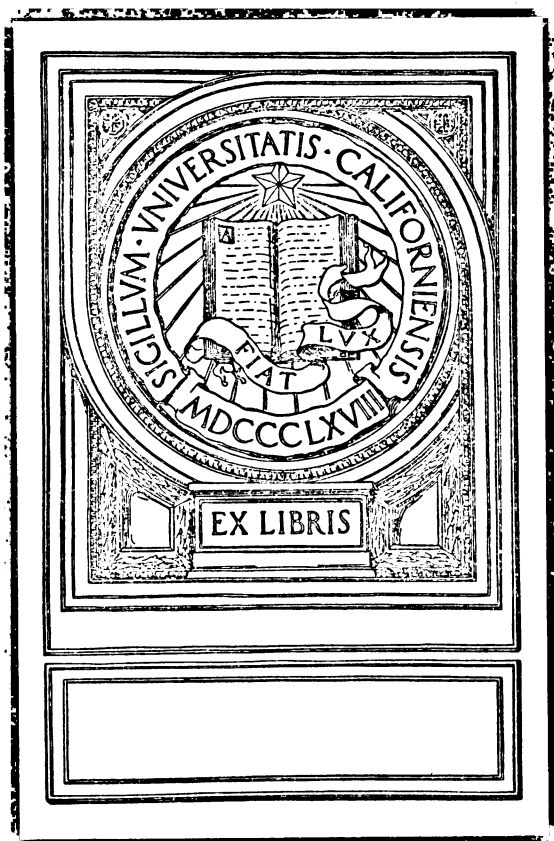

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

REPORT

OF THE

SECRETARY  
OF STATE

1911-1912

THE ARROW PRESS  
Tribune-Reporter Printing Co.  
SALT LAKE, UTAH  
1913

1. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$ .

2. In the second part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$  is solved for the case of a linear system of equations.

3. In the third part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$  is solved for the case of a nonlinear system of equations.

4. In the fourth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$  is solved for the case of a system of equations with a variable coefficient.

5. In the fifth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$  is solved for the case of a system of equations with a variable coefficient.

6. In the sixth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$  is solved for the case of a system of equations with a variable coefficient.

7. In the seventh part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$  is solved for the case of a system of equations with a variable coefficient.

8. In the eighth part, the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$  is solved for the case of a system of equations with a variable coefficient.

19/0/12

TO VINU  
AIRPORT

December 15th, 1912.

TO THE GOVERNOR:

Sir:

In obedience to the requirements of law, I have the honor to submit a report of my Official Acts and a general statement of the operation of the department during the period from Decmber. 1st, 1910, to November 30th, 1912.

### RECEIPTS.

The receipts of the department from all sources during the two years ended November 30th, 1912, were \$234,479.99, classified as follows:

General Fees .....	\$ 76,575.33
Corporation License Tax .....	144,115.00
Penalties and Costs from Delinquent Corporations .....	7,716.25
Re-instatment of Corporations.....	1,667.50
Discharge of Corporation Tax Liens.....	483.19
Recording Marks of Ownership.....	22.00
Registration of Motor Vehicles and Chauffeurs .....	2,957.80
Sale of Compiled Laws.....	942.92
Total.....	<u>\$234,479.99</u>

### CORPORATION LICENSE TAX.

The receipts from the collection of Annual Corporation License Taxes and Penalties were \$151,831.25, as compared with \$158,690.00 for the preceding two years, a decrease of \$6,868.75. This decrease is accounted for, to some extent, by reason of the fact that quite a large number of non-productive Corporations, originally organized with large authorized capital, have by amendment reduced their capital to a minimum, thereby naturally reducing the amount of the License Tax to be paid. How-

M205326

ever, the income from this source of revenue can be safely placed at \$75,000.00 per annum.

I repeat the suggestion made in my last previous report that, as a matter of justice and for the purpose of increasing the revenue from this source, that the present schedule be extended, making the maximum license tax \$250.00, instead of \$50.00 under the present law, but not to disturb the present graduating scale up to \$50.00.

### MOTOR VEHICLES.

During the past two years there have been 1,249 automobiles registered, and a number of duplicate automobile and chauffeurs' plates sold, from which the State received in fees \$2,957.80, which was deposited with the State Treasurer for credit of the State Road Fund. On the 30th day of November, 1912, the total number of registrations were 2,569.

### LAND PATENTS.

During the period covered by this report 1,699 land patents have been issued and recorded, conveying 329,395.318 acres of public lands. During the preceding two years 1,795 patents were issued, conveying 291,068.45 acres of land. A complete list of these patents will be found herein.

### CORPORATIONS ORGANIZED.

During the past two years, as shown by schedules herein, 1,046 corporations were organized under the laws of the State, including 36 churches and religious societies, and 119 foreign corporations, were admitted to the State.

I repeat my suggestion of two years ago, that our Corporation Laws should be amended providing a more severe penalty against foreign corporations failing to comply with the Laws of the State relating to such Companies.

### PROPOSED AMENDMENTS TO THE CONSTITUTION.

The Ninth Legislature adopted eight resolutions proposing Amendments to the Constitution, which were

published for two months preceding the General Election held November 5th, 1912, as required by a provision of the Constitution, and submitted to the voters at said election for their adoption or rejection.

The Amendments were all rejected by the following vote:

	For	Against
Amendment to Sec. 9 of Art. 6, relating to the compensation of Members of the Legislature .....	6,056	30,113
Amendment to Sec. 4 of Art. 14, fixing the limit of indebtedness of Counties, Cities, Towns, and School Districts .....	9,122	25,004
Amendment to Sec. 1 of Art. 11, relating to existing Counties, Cities and Towns, and providing for the creating of new counties.....	12,966	22,132
Amendment to Sec. 17 of Art. 7, to permit the fixing of the duties of State Auditor and State Treasurer.....	13,041	21,150
Amendment to Sec. 2 of Art. 13, relating to the general taxation of property .....	6,415	25,684
Amendment to Sec. 11 of Art. 13, relating to State and County Boards of Equalization and defining the duties of each such boards.....	6,944	24,863
Amendment to Sec. 3 of Art. 13, relating to the classification of property for the purpose of taxation.....	6,093	25,737
Amendment to Sec. 4 of Art. 13, relating to the taxation of mines.....	8,919	23,440

## BANKS AND BANKING.

In my last report, I recommended the enactment of a New Banking Act to include provisions covering the following subjects:

1. A material increase in the fees for examination, based upon the gross assets of the bank.
2. That no bank be permitted to organize with an authorized capital of less than \$25,000.00.
3. That the investments of savings banks be limited as to the character of such investments.
4. Limiting the borrowing capacity of banks, and prohibiting borrowing on certificates of deposits.
5. Making private or partnership banks subject to examination.
6. Prohibiting the establishment or operation of branch banks, either domestic or foreign.
7. The absolute segregation of savings from commercial deposits in banks having both departments, and prohibiting the mingling of the cash and securities of the savings department with those of the commercial department.
8. Defining more specifically and extending the duties of directors, and fixing a greater penalty for neglect of such duties.
9. Prohibiting unauthorized banking.
10. Repeal of the present Loan Trust and Guaranty Act and the enactment of a law providing for the organization of trust companies, and prohibiting such companies from acting as surety on bonds unless they comply with the law governing surety companies.

A bill was passed by the Ninth Legislature and was approved by the Governor, March 9th, 1911, embodying all my suggestions with the exception of Nos. 3-7 and 10.

The enforcement of the new law has resulted in great improvement in the general condition and affairs of many of our banks, thereby better safeguarding the funds of the depositors.

I wish to direct attention to the following statement which occurs in my last report:

"It is my opinion that the legislature of 1913, to afford

adequate supervision, and to properly safeguard the money of the depositors, will be required to create a State Banking Department or Bureau and provide for the appointment of a Bank Commissioner."

I am more than ever impressed with the necessity for the creation of a banking department.

The present law provides for but one Examiner, and he is required to make an examination of each of the seventy-eight corporate and one private bank, at least once a year, but during the long interim between examinations, a bank could easily be wrecked either through bad loans and investments or by the acts of dishonest or incompetent officials.

Neither the Examiner nor the Secretary of State, who is ex-officio Bank Commissioner, have the time to give special attention to weak or unsound banks under the present law. I therefore recommend that our banking law be amended so as to create a Banking Department or Bureau, providing for appointment by the Governor of a Commissioner of Banking and one or more Examiners. That each State and Private bank or Trust Company be examined at least twice each year, and that the present examination fees be reduced, and that such salaries be provided that will enable the state to secure the services of men well qualified for the positions.

I also again recommend the repeal of our present Loan Trust and Guaranty Law, and the enactment of a law providing for the organization and regulation of Trust Companies.

Section 44 of our present Banking Act authorizes the Bank Commissioner, under certain conditions to withhold his approval of applications for Bank Charters, and the applicants have no appeal from his action.

I recommend that this section be amended, making the State Board of Examiners a State Banking Board to whom applicants for charters may appeal over the decision or acts of the Commissioner.

During the time the new law has been in operation the Commissioner has refused to grant charters in three cases, for the reason that the locality where it was thought to establish these banks were, in the judgment of the Commissioner, well supplied with banking facilities. How-

ever, in two of the three cases the bank in operation has been induced to double its capital and the additional stock has been offered to the organizers of the proposed new bank.

It has been the policy of the department to have fewer but stronger banks.

### INVESTMENT OF REDEMPTION FUNDS.

The legislature of 1903, authorized the State Board of Loan Commissioners to invest the funds set aside for the redemption of the territorial bond issue maturing July 1st, 1912.

Through the investment of these funds, there was derived the sum of \$31,972.54, which was deposited with the State Treasurer for credit of the general fund.

Just previous to the maturity of the bonds, these securities were converted into cash and the bonds promptly retired.

The tenth legislature should authorize the investment of the funds now accumulating for the redemption of the bond issues maturing in 1916-1918 and 1920.

### COMMISSIONERS OF DEEDS.

During the biennium just ended, four commissioners have been issued to residents of other States and Countries as Commissioners of Deeds for this State. Herein will be found a complete list of all such Commissions now in force.

### COMPILED LAWS 1907.

Under authority of Chapter 3 of the Laws of 1907, four thousand copies of the Compiled Laws of Utah, 1907, were published and delivered to the Secretary of State, one thousand copies of which were unbound and three thousand copies bound. Of the three thousand bound copies 662 were distributed to members of the Legislature, United States and State Officials, Departments and Institutions, 3 were exchanged for imperfect copies, and 1415 were sold, and there is now on hand 920 volumes bound and 1,000 copies unbound.

## PUBLICATION AND DISTRIBUTION OF LAWS AND JOURNALS.

The Laws of the Ninth Session of the Legislature were officially published on the 26th day of April, 1911, and copies were immediately delivered to the State officers and members of the Legislature and the usual exchanges made with other States.

The Journals of the Senate and House were also distributed as the law requires.

The election laws were reprinted in pamphlet form and distributed to County Clerks for use of Election officers previous to the election of 1912.

## NOTARIES PUBLIC.

I submit herewith a complete list of Notarial Commissions issued during the past two years,, giving date of appointment. The Clerks of the various counties were promptly advised of appointments made for his county.

Following will be found various statistical tables and schedules covering more in detail the transactions of this department.

Respectfully,

CHARLES S. TINGEY,  
Secretary of State.

## Commissioners of Deeds for the State of Utah Resident in Other States.

Date of Ap- pointment	NAME	RESIDENCE	Com- mission Expires
